## 1. OVERVIEW

The performance of the Global economy is very important to Guyana's new and emerging sector with respect to cash flows due to changes in prices and interest rates. Global growth contracted during the first quarter of 2020 as economic activities declined in the advanced, emerging and developing countries and Caribbean region (WEO – April, 2020). This subdued growth was as a result of the COVID-19 pandemic and subsequent lockdown of countries, disabling consumer spending, private investment, international trade and production activities.

Preliminary<sup>1</sup> estimates suggest that the Guyanese economy recorded mixed output performance in the major sectors at end-March 2020 since the country did not start experiencing the effects of the coronavirus pandemic, with the first case only confirmed on March 11, 2020. In the agriculture sector, output of rice and other crops were higher while that of sugar and forestry were lower. Similarly, in the mining and quarrying sector, output of gold increased while bauxite and diamond output declined. The services and construction sectors experienced mixed performance with the emerging oil & gas sector activities and public investments. The manufacturing sector registered increases in the production of paints, rum, non-alcoholic beverages, liquid pharmaceuticals and stockfeed.

There was a deflation of 0.4 percent recorded at the end of March 2020 primarily on account of lower food and fuel prices.

The overall balance of payments recorded a higher deficit of US\$84.4 million compared to US\$71.2 million for the same period last year. This was primarily driven by a lower capital account surplus which resulted from reduced foreign direct investments mainly on account of the impact of the coronavirus pandemic on the global economy during the first quarter of 2020.

The overall value of transactions on the foreign exchange market increased by 10.4 percent or US\$243.4 million to US\$2,582.7 million. Transactions in foreign currency accounts, hard currency and the bank and non-bank cambios were largely responsible for this outcome. In contrast, soft currency transactions recorded lower values. Total foreign exchange sales were greater than purchases, resulting in a net sale of US\$49.5 million. The Bank's weighted mid-rate, which is the reference for official transactions, was unchanged at G\$208.50 during the first quarter of 2020.

The overall financial position of the public sector, (which includes the Central Government and the Non-Financial Public Enterprises (NFPEs)), recorded a reduced surplus at end-Mar 2020. The NFPEs registered a larger deficit of G\$2,871 million, whereas, the Central Government had a higher surplus of G\$6,562 million.

---

<sup>1</sup> There was not much production data available up to the time of publishing this report.

---

The total stock of public debt, which is comprised both external and domestic debt, fell slightly by 0.04 percent to US\$1,688 million compared to the end-Dec 2019 position. Domestic debt stock increased to G\$81,237 million or US\$390 million primarily from an increase in the stock of 364-day treasury bills by G\$1,500 million during the review period. Domestic debt service payments expanded to G\$22,945 million as a result of principal repayments for treasury bills redeemed for fiscal support.

The stock of external debt declined to US\$1,299 million on account of a reduction in bilateral debt stock during the review period. This was attributed to lower loan disbursements by the EximBank of China as well as scheduled principal repayments of US\$7.3 million. External debt service payments, which accounted for 5.0 percent of export earnings, fell by 0.8 percent primarily due to lower principal payments to bilateral creditors.

The monetary aggregates of reserve money grew by 1.2 percent while that of broad money fell marginally by 0.1 percent. The former was mainly due to increases in the net domestic assets of the Bank while the latter reflected the reduction in net foreign assets and other items (net)<sup>2</sup> which offset an expansion in net domestic assets. Private sector credit grew by 2.0 percent. The weighted average lending rate declined while the treasury bills rates remained unchanged during the review period.

The financial resources of the Non-Bank Financial Institutions (NBFIs), which

includes depository and non-depository financial institutions, increased by 1.1 percent to G\$309,120 million. The sector's share of total assets in the financial sector decreased from 35.4 percent to 34.9 percent.

At the end of the first quarter of 2020, the financial system remained relatively stable with the Licensed Depository Financial Institutions (LDFIs) being adequately capitalised, highly liquid and profitable. Capital Adequacy Ratio (CAR) continued to exceed the prudential 8.0 percent benchmark. Asset quality was satisfactory and reflected an increase in loans despite rising levels of non-performing loans when compared with the first quarter of 2019.

The conduct of monetary policy continued to focus on price stability while ensuring an adequate level of liquidity in the system to provide for private sector credit and economic growth. The Bank continued to use treasury bills in its primary Open Market Operations. At the end of the first quarter of 2020, treasury bills issued for monetary purposes amounted to G\$1,160 million. Additionally, the Bank continued to facilitate efficient intermediation through the issuance of notes and coins.

Payment system reform continued with the implementation of a new Payments System Act and the modernization of the Payments System Infrastructure which includes the Real Time Gross Settlement (RTGS) and Central Securities Depository (CSD).

The Bank of Guyana stands ready to activate its Business Continuity Plan (BCP) with a view to minimising disruption to services

---

<sup>2</sup> Other items (net) include commercial banks' share capital, reserve funds and undistributed profits.

---

provided to the financial system and the country as a whole. Measures are in place to ensure the adequate supply of currency while the Bank will continue to undertake all necessary measures to safeguard the Guyanese financial sector and economy at large. In addition, in an effort to maintain its commitment to safeguarding and strengthening the resilience of the financial sector, the Bank has committed to and implemented a series of measures designed to minimise the economic impact of the COVID-19 pandemic on the entire financial system. □

---

## **2. REVIEW OF THE FIRST QUARTER OF 2020**

### **PRODUCTION**

There was not much production data available up to the time of publishing this report, however, preliminary estimates suggest that Guyana's economy registered mixed output performance in the major sectors during the first quarter of 2020 since the country did not start experiencing the effects of COVID-19, with the first confirmed case on March 11, 2020.

It is assumed that the agriculture sector experienced increased production of rice and other crops due to favourable weather conditions while the output of forestry and sugar most likely declined in the first quarter of 2020.

In the mining and quarrying sector, output of gold is estimated to have expanded for the first quarter, reflecting the resumption of operations by Troy Resources Guyana Ltd. (in late January 2020) as well as higher output by Guyana Goldfields Inc. However, bauxite and diamond production declined during the review period.

The services and construction sectors are projected to have registered mixed output performance with the former being bolstered by the emerging oil & gas sector activities while the latter was supported by public investment.

The manufacturing sector most likely recorded an expansion in output stemming from increased production of paints, rum, non-alcoholic beverages, liquid pharmaceuticals and stockfeed.

### **INFLATION**

The Urban Consumer Price Index (CPI) recorded a deflation of 0.4 percent for the first quarter of 2020. This performance was mainly on account of declines in the categories of food, transport & communication and other goods & services by 1.1 percent, 0.2 percent and 0.1 percent respectively. On the other hand, price increases were recorded in the categories of housing by 0.1 percent, furniture by 0.3 percent, education & cultural services by 0.6 percent, and medical care & health services by 1.6 percent.

### **BALANCE OF PAYMENTS**

The overall balance of payments recorded a higher deficit of US\$84.4 million at the end of March 2020 compared with US\$71.2 million for the same period last year. This was primarily driven by a lower capital account surplus. The contraction in the capital account surplus resulted from reduced foreign direct investments mainly on account of the impact of COVID-19 on the global economy during the first quarter of 2020.

The current account deficit, with the inclusion of crude oil export, contracted to US\$90.8 million from US\$405.9 million the previous year mainly due to export earnings from crude oil as well lower merchandise imports. The merchandise trade registered a surplus of US\$41.2 million from a deficit of US\$293.0 million. This reflected a US\$309.6 million growth in exports to US\$650.5 million. Merchandise export receipts increased by 90.8 percent or

---

US\$309.6 million which stemmed from exports of crude oil valuing US\$284.4 million along with higher exports of gold and “other” exports of US\$38.8 million and US\$5.0 million respectively. Merchandise imports declined by US\$24.5 million due mainly to a drop in imports of intermediate goods by US\$62.4 million.

Excluding crude oil export, the current account deficit stood at US\$375.2 million, a 7.6 percent improvement from the end-2018 deficit of US\$405.9 million. This reflected the lower merchandise trade deficit of US\$243.3 million stemming mainly from increases of 19.1 percent and 9.6 percent in exports of gold and “other” exports respectively.

The services account recorded a higher deficit of US\$269.8 million, an increase of 15.1 percent or US\$35.4 million from one year ago. This resulted from increased payments for non-factor services coupled with falling receipts from travel and “other business services” by 75.2 percent and 33.6 percent respectively. Net payments for factor services resulted in a deficit which declined by 9.5 percent to US\$24.5 million while net unrequited transfers increased by 13.5 percent or US\$16.4 million to US\$137.8 million.

The capital account registered a lower surplus of US\$16.4 million from US\$337.7 million at end-March 2019 on account of reduced inflows to the private sector in the form of foreign direct investments by 85.3 percent mainly from the oil & gas sector. Inflows from bilateral and multilateral agencies increased to US\$15.2 million from US\$11.5 million a year earlier.

The overall deficit was financed by a drawdown on the Bank of Guyana’s foreign reserves. BOG international reserves amounted to US\$499.2 million and was equivalent to 1.6 months of import cover at the end of the first quarter of 2020.

## **FOREIGN EXCHANGE MARKET**

Foreign currency transactions increased by 10.4 percent to US\$2,582.7 million compared with US\$2,339.3 million in the first quarter of last year. Total purchases and sales were US\$1,266.6 million and US\$1,316.1 million respectively. Net sales was US\$49.5 million.

Transactions processed at the bank and non-bank cambios amounted to US\$1,115.9 million, an increase of 9.8 percent or US\$99.2 million in the value of trades when compared with the corresponding period last year. At the Bank of Guyana, total hard currency inflows and outflows increased to US\$340.0 million from US\$300.2 million. Net payments were US\$76.8 million. The value of foreign currency account transactions increased by 18.6 percent to US\$1,124.7 million. Net debits amounted to US\$0.5 million. Transfers through money transfer agencies increased by US\$21.3 million to US\$88.6 million. Soft currency transactions declined by 69.8 percent or US\$4.8 million to US\$2.1 million at the cambios.

Commercial bank cambios continued to dominate the cambio trade. Total turnover was US\$1,101.9 million or 98.7 percent of the entire cambio market transactions, an increase of 10.8 percent compared with the corresponding period in 2019. However, the value of foreign exchange activities at the

---

non-bank cambios showed a decline of 37.8 percent in activities. Trades amounted to US\$14.0 million compared with US\$22.5 million during the corresponding period in 2019. The non-bank cambios accounted for 1.3 percent of the market.

Hard currency purchases and sales by the Bank of Guyana were US\$131.6 million and US\$208.4 million compared with US\$148.6 million and US\$151.7 million respectively for the same period in 2019. The increase in sales stemmed from increased payments for fuel oil and other goods & services. Fuel imports represented the largest category of payments, amounting to 54.2 percent. The Bank purchased foreign currency amounting to US\$65.5 million from commercial banks during the first quarter of 2020.

The debits and credits of authorized foreign currency accounts at commercial banks were US\$562.6 million and US\$562.1 million respectively. This resulted in net purchases of US\$0.5 million on these accounts. The corresponding period last year recorded debits and credits of these accounts at US\$466.8 million and US\$481.4 million respectively.

The aggregated value of transfers by money transfer agencies during the period under review amounted to US\$88.6 million, 31.7 percent higher than the previous year. Inbound and outbound transactions were US\$78.6 million and US\$10.1 million respectively.

Interbank trade amounted to US\$2.0 million in March 2020 when compared with US\$4.0 million for the same period last year.

The US dollar was the most traded currency on the market. US dollar transactions accounted for 96.4 percent of the overall market activity. The market share of the Canadian dollar, the Euro and the Pound Sterling were 1.4 percent, 1.3 percent and 0.9 percent respectively.

CARICOM currency transactions declined by 69.8 percent to US\$2.1 million from US\$6.9 million at end-March 2019. The market share of the Trinidad & Tobago dollar was 45.0 percent, followed by the Barbadian dollar with 34.2 percent and the EC dollar with 20.8 percent of the aggregate turnover.

The Bank's weighted mid-rate, which is the reference for official transactions, was unchanged at G\$208.50 during the first quarter of 2020. The un-weighted rate experienced an appreciation by 0.01 percent, from G\$214.91 at the end of March 2019 to G\$214.88 at the end of the review period for 2020.

The average buying and selling rates of the US dollar at bank cambios as at March 2020 depreciated to G\$213.95 from G\$213.52 and to G\$215.34 from G\$215.15 respectively from the corresponding period last year. At the non-bank cambios, the buying rate was lower at G\$213.51 from G\$213.93 in the previous period, while the selling rate remained unchanged at G\$216.51 at the end of March 2020.

The difference between the banks' and non-banks' buying rates increased to G\$0.44 from G\$0.42 at end-March 2019. The difference in the selling rates of the bank and non-bank cambios was G\$1.18 compared with G\$1.36 for the same period in 2019. The banks' spread was lower at G\$1.39 compared

---

with the non-banks' spread at G\$3.00. The total market spread increased to G\$2.41 compared with G\$2.24 at the end of March 2019.

## **PUBLIC FINANCE**

The overall financial position of the public sector, (which includes the Central Government and the Non-Financial Public Enterprises (NFPEs)), recorded a reduced surplus, at end-Mar 2020, relative to the corresponding period in 2019. This performance was due to the widening of the NFPEs' deficit to G\$2,871 million. Central Government's fiscal balance registered a higher surplus of G\$6,562 million due to an increase in current revenues.

### **Central Government**

The Central Government fiscal balance recorded a higher surplus of G\$6,562 million at end-Mar 2020, relative to a surplus of G\$5,895 million at end-Mar 2019. This was attributed to a G\$3,515 million increase in current revenues. In addition, the current account registered a surplus of G\$9,038 million from a surplus of G\$6,711 million the previous year.

Total current revenue increased by 6.7 percent to G\$56,019 million. This performance reflected greater collection of VAT & excise taxes by 8.8 percent to G\$23,630 million, income taxes by 9.2 percent to G\$23,593 million, trade taxes by 5.1 percent to G\$5,238 million, and other tax revenues by 0.1 percent to G\$1,846 million. However, non-tax revenues declined by 27.3 percent to G\$1,713 million.

Total current expenditure (including interest charges) increased by 2.6 percent to G\$46,981 million. This was due to increases in transfer payments by 12.9 percent to G\$20,707 million and employment costs by 10.9 percent to G\$16,366 million. However, purchases of other goods & services decreased by 26.2 percent to G\$7,307 million. In addition, total interest charges declined by 7.0 percent to G\$2,602 million, due to reductions in both external and domestic interest payments by 6.3 percent and 10.6 percent to G\$2,210 million and G\$392 million respectively.

Total capital revenue (including grants & debt relief) fell by 94.1 percent to G\$369 million. Local capital receipts recorded earnings of G\$1.3 million during the review period. Grants & debt relief were lower by 94.2 percent to G\$368 million, mainly due to the lack of grants during the first quarter of 2020, while debt relief from Enhanced HIPC (E-HIPC) decreased by 0.7 percent to G\$368 million.

Capital expenditure contracted by 59.9 percent to G\$2,845 million as there is no Budget for 2020 as yet. Disbursements declined for construction by 49.2 percent, agriculture by 67.5 percent, transport & communication by 92.5 percent, environment & pure water by 88.3 percent, financial transfers by 97.6 percent, administration by 94.2 percent, education by 26.1 percent, national security & defence by 15.3 percent and manufacturing by 13.0 percent. There were no capital investments for power generation, housing, fishing, social welfare and tourist development. On the other hand, there was increased capital spending for health by 40.8 percent,

---

primarily for the month of March in response to the COVID-19 outbreak. Expenditure for public safety also expanded by 23.4 percent while that for culture & youth rose by 12.4 percent.

Central Government financing amounted to net external savings of G\$3,799 million and net domestic borrowing of G\$2,763 million.

### **Non-Financial Public Enterprises**

Non-Financial Public Enterprises (NFPEs) recorded a larger deficit of G\$2,871 million, at end-Mar 2020, compared to a deficit of G\$386 million, at end-Mar 2019. This deterioration resulted from expansions in total expenses by G\$980 million coupled with a reduction in receipts by G\$1,505 million.

Current receipts decreased by 5.4 percent to G\$26,543 million mainly on account of a decline in receipts from debtors and a reduction in financing that GUYSUCO received from the National Industrial and Commercial Investments Limited/Special Purpose Unit's (NICIL/SPU) syndicated bond. Receipts from debtors fell by 14.7 percent to G\$5,443 million largely due to lower receipts by GUYOIL. Similarly, GUYSUCO's financing from the NICIL/SPU's syndicated bond contracted to G\$300 million, an 84.4 percent decline from the G\$1,920 million received in the first quarter of 2019. Export sales and other current receipts also fell by 4.4 percent and 9.5 percent to G\$1,075 million and G\$6,613 million respectively. On the other hand, increases were recorded for local sales by 1.0 percent to G\$12,785 million and VAT refunds by 8.9 percent to G\$627 million.

Total expenditure expanded by 3.4 percent to G\$29,414 million. Non-interest current expenditures increased by 3.0 percent to G\$27,929 million, due to higher payouts for material & supplies by G\$1,296 million, repairs & maintenance by G\$406 million, freight by G\$40 million and other current expenses by G\$6,715 million. Conversely, there were declines in payments to creditors by G\$1,079 million, employment costs by G\$130 million, VAT payments to GRA by G\$16 million and local government rates & taxes by G\$4 million. Interest payments fell by G\$274 million mainly from reduced payouts by GUYSUCO and GPL. Capital expenditure expanded by 40.9 percent to G\$1,480 million owing to increases in capital spending by GPL and GUYOIL of G\$379 million and G\$16 million respectively.

The National Insurance Scheme's overall deficit worsened to G\$401 million, at end-Mar 2020, from a deficit of G\$261 million recorded at end-Mar 2019. This was reflective of higher expenses by 10.6 percent to G\$6,752 million, which outweighed the increase of 8.7 percent to G\$6,351 million in total receipts.

Furthermore, NFPEs' financing position amounted to net external savings of G\$254 million and net domestic borrowing of G\$3,125 million.

### **PUBLIC DEBT**

The total stock of public debt, which comprises both external and domestic debt, declined slightly by 0.04 percent or US\$ 0.7 million to US\$1,688 million from the end-December 2019 position. The stock of domestic debt grew by 1.6 percent to G\$81,237 million compared with G\$79,982

---

million at end-December 2019 while the stock of external public debt declined marginally by 0.5 percent to US\$1,299 million. Domestic debt stock was higher as a result of an increase in the stock of 364-day treasury bills by 2.1 percent or G\$1,500 million to G\$71,494 million at end-Mar 2020. In contrast, the stock of 182-day treasury bills remained at its end-December 2019 level of G\$725 million, while there was no issuance of 91-day treasury bills during the review period. There were four (4) treasury bill auctions during the first quarter, all of which were issued for fiscal support, totalling G\$24,000 million. The stock of debentures fell by 3.0 percent or G\$244 million from its end-2019 position of G\$8,045 million.

The decline in the stock of external debt resulted from a 1.3 percent or US\$6 million contraction in bilateral debt stock. This outcome was due to a US\$5 million reduction in debt outstanding to the EximBank of China, which reflected lower loan disbursements as well as scheduled amortisation during the review period. In addition, the stock of debt to multilateral creditors fell by 0.1 percent or US\$0.5 million from the end-Dec 2019 position, owing to lower debt outstanding by the Caribbean Development Bank (CDB) and 'other' multilateral creditors by 0.2 percent and 2.4 percent to US\$151 million and US\$34 million respectively.

Domestic debt service payments expanded significantly by G\$16,291 million to G\$22,945 million from G\$6,654 million in March 2019. This was largely on account of principal repayments for treasury bills which were issued for fiscal support during the

review period. In addition, total interest payments increased by 3.6 percent reflecting higher interest payments for the 364-day treasury bills. Interest payments for the 364-day bills increased by 22.1 percent to G\$268 million when compared to March 2019, owing to higher redemptions. The average yield for 364-day treasury bills redeemed during the review period increased slightly by 4 basis points. In contrast, interest payments for the 182-day treasury bills and debentures fell by G\$29 million and G\$4 million respectively.

External debt service payments fell marginally by 0.8 percent to US\$25 million primarily on account of lower principal payments to bilateral creditors. Debt repayments to the EximBank of China, which accounted for 39.2 percent of total external debt service, decreased by 0.9 percent as a result of lower principal repayments during the review period. In contrast, debt repayments to the Inter-American Development Bank (IADB) and Caribbean Development Bank (CDB) increased by 0.7 percent and 1.4 percent to US\$8 million and US\$3 million respectively, accounting for a total of 91.6 percent of debt repayments to multilateral creditors and 43.6 percent of total external debt service. Indicators of liquidity risks remained below the respective thresholds. The external debt service ratio was 5.0 percent while the external debt service to revenue ratio was 9.5 percent.

## **MONETARY DEVELOPMENTS**

Reserve money grew by 1.2 percent or G\$2,434 million to G\$211,640 million from its December 2019 level, reflecting a 20.5 percent growth in net domestic assets by G\$18,424 million while net foreign assets

---

contracted by 13.4 percent or G\$15,990 million. The increase in net domestic assets resulted from a 2.8 percent expansion in liabilities to the commercial banks while currency in circulation fell by 0.2 percent or G\$188 million.

Broad money contracted marginally by 0.1 percent or G\$242 million due to a reduction in net foreign assets and other items (net) which offset an increase in net domestic credit. Net foreign assets and other items (net) were lower by 5.6 percent or G\$10,670 million and 27.1 percent or G\$7,493 million respectively, while net domestic credit rose by 6.0 percent or G\$17,921 million. The decline in broad money was reflected in a decrease in narrow money while quasi money expanded. Narrow money, consisting of currency in circulation, private sector demand deposits and cashiers' cheques & acceptances, was lower by 2.1 percent resulting mainly from a 5.0 percent and 0.2 percent reduction in demand deposits and currency in circulation respectively, while cashiers' cheques & acceptances rose by 22.8 percent. In contrast, quasi money, which consists of time and savings deposits, grew by 2.4 percent to reach G\$215,367 million with time and savings deposits increasing by 4.4 percent and 2.1 percent respectively.

Total deposits by residents and non-residents were higher by 0.5 percent to G\$428,555 million and 13.6 percent to G\$23,932 million respectively. Private sector deposits, which accounted for 78.7 percent of total deposits by residents, were lower by 0.4 percent.

Net domestic credit of the banking system expanded by 6.0 percent to G\$316,014 million from the December 2019 level of G\$298,092 million on account of higher credit to both the public and private sectors.

The public sector (net) credit position further deteriorated by 19.0 percent to G\$93,316 million from G\$78,411 million at end December 2019 mainly on an account of a worsening of central government net credit position. Net credit to the central government was higher by 10.4 percent or G\$13,345 million to G\$142,150 million at the end of March 2020. The public enterprises and other category of the public sector remained net depositors with balances amounting to G\$29,784 million and G\$19,050 million respectively at the end of March 2020.

Private sector credit grew by 2.0 percent or G\$5,130 million compared to a marginal increase of 0.01 percent or G\$45 million one year ago. This position reflected increases in credit all sectors except for the mining, construction & engineering, household, "other" other services and manufacturing sectors. Loans to the agriculture, other services and distribution sectors increased by 14.7 percent, 7.8 percent and 3.2 percent respectively. Similarly, real estate mortgage loans sectors grew by 1.4 percent while credit extended to the mining and construction & engineering sectors fell by 13.1 percent and 4.6 percent respectively. Personal loans also declined by 3.8 percent while lending to the other category of the private sector<sup>3</sup> and the

---

<sup>3</sup> Comprises investments in local securities and shares & other equity in local companies.

---

manufacturing sector contracted by 2.5 percent and 0.3 percent respectively.

The net foreign assets of the banking system fell by 5.6 percent to US\$864.9 million. This was due mainly to a 13.4 percent reduction in the net foreign assets of the Bank of Guyana while that of the commercial banks grew by 7.4 percent. At the end of March 2020, the Bank of Guyana's net foreign assets stood at US\$495.8 million while that of the commercial banks was US\$396.1 million.

The overall liquidity of the banking system was lower by 1.0 percent to G\$149,001 million mainly on account of a reduction in the balances due from commercial banks in Guyana. The ratio of excess liquid assets to total liquid assets also decreased from 35.3 percent at end-December 2019 to 34.0 percent at end-March 2020.

Total reserves deposited with the Bank of Guyana increased by 2.3 percent to reach G\$82,711 million. The required statutory reserves of the banks expanded by 1.1 percent or G\$571 million reflecting an increase in deposit liabilities at the commercial banks. Reserves in excess of the minimum requirement stood at G\$29,401 million at the end of March 2020.

There were marginal movements in the interest rates during the review period. The 182-day treasury bill yield remained unchanged while the 364-day treasury bill yield increased slightly by 1 basis point to 1.01 percent at end-March 2020. The yield on the 91-day treasury bill remained unchanged at 1.54 percent reflecting the non-issuance of

the bill during the review period. The small savings rate remained stable at 0.97 percent while the weighted average time deposit rate grew marginally by 1 basis point to 0.98 percent. However, the weighted average lending rate declined by 5 basis points to 9.14 percent while the prime lending rate of the commercial banks was constant at 10.29 percent.

## **NON-BANK FINANCIAL INSTITUTIONS**

The financial resources of the Non-Bank Financial Institutions (NBFIs), which includes depository and non-depository financial institutions, increased by 1.1 percent to G\$309,120 million<sup>4</sup>. The sector's share of total assets in the financial sector decreased from 35.4 percent to 34.9 percent.

The expansion in the NBFIs' assets resulted mainly from a 2.3 percent or G\$3,210 million increase in other liabilities, which comprises capital and reserves. Deposits and foreign liabilities also grew by 0.6 percent or G\$316 million and 0.2 percent or G\$48 million respectively. Conversely, insurance premium fell by 4.8 percent or \$302 million.

Investments by the NBFIs were held mainly in the banking system and foreign sector during the period under review. Claims on the banking system, which accounted for 13.6 percent of total assets, expanded by 3.1 percent or G\$1,276 million. Claims on the non-resident and private sectors increased by 1.5 percent or G\$1,076 million and 0.4 percent or G\$589 million respectively. The acquisition of other assets, which accounted for 11.9 percent of total assets, was also

---

<sup>4</sup> Data for the pensions sector is as at end-2019 due to the unavailability of data for March 2020.

---

higher by 1.4 percent or G\$499 million. Conversely, investments in the public sector decreased by 2.6 percent or G\$169 million.

## **FINANCIAL STABILITY ASSESSMENT**

### **Capital**

At end-March 2020, the aggregate capital adequacy ratio (CAR) for LDFIs was 29.7 percent, 1.3 percentage points below the 31.0 percent recorded at end-March 2019. The reduction in the ratio resulted from the net effect of a 10.8 percent (G\$8,887 million) growth in qualifying capital, against a 15.6 percent (G\$41,650 million) increase in risk-weighted assets.

### **Asset Quality**

The non-performing loans (NPLs) of LDFIs were 10.1 percent of total loans during the review period, a slight improvement of 0.8pp when compared with the corresponding period in 2019. The foregoing change resulted from a 10.4 percent growth in total loans despite a 2.5 percent increase in NPLs.

NPLs remained concentrated in the business enterprises sector at 63.4 percent of LDFIs' aggregate NPLs, with the services sub-sector representing 37.2 percent. The mining & quarrying sub-sector reflected an increase of 32.7 percent while the agriculture, manufacturing and services sub-sectors recorded decreases of 9.1 percent, 7.9 percent and 5.1 percent respectively when compared with end-March 2019 level. The ratio of provision for loan losses to NPLs dropped from 38.9 percent at the end of March 2019 to 37.1 percent at the end of

March 2020. The decline was due to the 2.0 percent decrease in provision for loan losses.

Exposure<sup>5</sup> to the top twenty borrowers amounted to G\$79,027 million, 16.1 percent above end-March 2019 level. Two of the eight LDFIs were responsible for the increase in exposure to the industry's top twenty borrowers. The ratio of top twenty borrowers' exposure to total exposure moved marginally from 15.6 percent at the end of March 2019 to 17.0 percent at the end of March 2020. For the quarter under review, 3.0 percent of top twenty borrowers' exposure were non-performing, 0.1pp below the corresponding period in 2019.

### **Earnings**

As at March 31, 2020, aggregate operating income of the LDFIs amounted to G\$9.8 billion, 4.0 percent above the end-March 2019 level. The growth in operating income resulted from increases in fees & commission and interest income of 49.3 percent and 5.7 percent respectively, which were offset by reductions in other operating income and foreign exchange gains by 81.5 percent and 5.2 percent respectively.

The LDFIs' aggregate operating expenses amounted to G\$6 billion, 17 percent above the March 2019 level. The increase in operating expenses was primarily driven by increases in provision for loan losses – 174.1 percent; other operating expenses – 18.7 percent; interest expense – 7.3 percent; and salaries and staff costs – 6.2 percent.

The 4.0 percent growth in interest income stemmed from increases in five institutions'

---

<sup>5</sup> Exposure includes loans, overdrafts, debentures, bonds, securities, and off-balance sheet items.

---

interest income, while seven of the eight LDFIs contributed to the 17 percent increase in interest expense.

Net income before tax was 7.9 percent below the end-March 2019 level at G\$4 billion, while net income after tax reflected a 5.5 percent (G\$169 million) decrease to G\$2.9 billion compared to the corresponding period. This quarter, five LDFIs reflected decreased profits after tax from their March 2019 level.

### **Liquidity**

The average level of liquid assets held by the LDFIs amounted to G\$203.5 billion<sup>6</sup>, 29.4 percent above the average level recorded for the corresponding period last year. This increase was due mainly to expansions in all categories of liquid assets with the exception of debentures, investment and bills of exchange which continue to hold zero liquid assets. The expansions ranged from 7.4 percent to 159.1 percent. When compared to March 2019, the largest dollar value increases in liquid asset holdings were observed for deposits with BOG, net due from bank abroad and net due from head office and branches.

### **MONETARY POLICY**

Bank of Guyana's monetary policy continued to focus on the attainment of price stability while ensuring an adequate level of liquidity to provide for private sector credit and economic growth. The Bank seeks to allow the expansion of broad money along a path consistent with projections for output and inflation. Thus, weekly targets for broad money are translated into targets for base

money using the money multiplier. To achieve these weekly base money targets, the Bank focuses on the effective management of excess liquidity in the financial system through its Open Market Operations (OMOs). The Bank may also purchase and sell foreign currency to achieve its primary objective.

During the review period, reserve money expanded by G\$2,434 million compared with a decline of G\$4,482 million for the corresponding period in 2019. There was one (1) issue of treasury bills for monetary purpose, amounting to G\$1,160 million while redemptions of bills issued for monetary purpose amounted to the same amount. Treasury bills were issued when reserve money exceeded the targeted levels and was deemed likely to adversely affect the economy.

Additionally, purchases from the commercial banks by the Bank amounted to US\$65.5 million while there were no sales to the commercial banks by the Bank of Guyana during the review period.

The inter-bank market activities, which also provide an indication of the total liquidity condition of the financial system, had three (3) trades during the review period. The value of funds traded on the market amounted to G\$6.4 billion. In comparison, there were two (2) trades, amounting to G\$1.5 billion on the inter-bank market during the first quarter of 2019.

---

<sup>6</sup> This represents April 2020 position.

---

## **BANK ACTIVITIES**

### **Currency Operations**

The Bank has a statutory obligation to issue the country's notes and coins under Section 21(1) of the Bank of Guyana Act No. 19 of 1998. This obligation was discharged through the Currency Division of the Operations Department. The total supply of currency in the first quarter of 2020 registered an increase of 20.9 percent from G\$69.6 million to G\$84.2 million over the corresponding period in 2019. The increase was due to a higher opening stock.

### **Notes**

The total value of currency notes in circulation (including notes held in the vaults of commercial banks) at the end of the first quarter of 2020 amounted to G\$126.7 billion, an increase of 19 percent when compared with a circulation of G\$106.5 billion in the first quarter of 2019. The share of the G\$5,000 note in total value of notes in circulation increased to reach 86.1 percent from 82.8 percent in 2019. The share of the G\$1,000 note in the total value of notes in circulation decreased to 10.6 percent from 13.5 percent one year ago. The share of G\$500 notes decreased to 1.2 percent from 1.3 percent in the previous year. The G\$100 decreased to 1.4 percent from 1.6 percent and \$50 remained at 0.1 percent. The \$20 notes decreased to 0.6 percent from 0.7 percent.

The policy of ensuring that only acceptable quality notes are in circulation was continued. This was achieved by regular withdrawals of mutilated, defaced or otherwise poor quality notes and replacing them with new notes. Mutilated, defaced and poor quality notes amounting to G\$118.4

million were submitted for replacement in the first quarter of 2020 compared with G\$110.3 million for the corresponding period in 2019.

### **Coins**

Coins issued by the Bank amounted to G\$1,121 million at the end of the first quarter of 2020, an increase of 3.2 percent above the G\$1,086 million recorded at the end of the corresponding period in 2019. The share of the G\$10 coin (45.7 percent) in the total value of coins in circulation was 7.2 percentage points more than that of the G\$5 coin (38.5 percent). The G\$1 coin continued to have the lowest share of coins in circulation (15.8 percent). In terms of the total quantity of coins issued, the G\$1 coin accounted for a 56.3 percent share. The shares of G\$5 and G\$10 coins accounted for 27.4 percent and 16.3 percent respectively.

### **Payments System**

During the first quarter of 2020, low-value transactions (LVT) settled through the National Clearing House (NCH) amounted to 224,205 and represented an increase of 1.4 percent when compared with the volume recorded for the corresponding period in 2019. The volume of high-value transactions (HVT) decreased by 10.7 percent to 29,592. The overall value of total transactions increased by 9.3 percent to G\$329 billion when compared to the corresponding period in 2019. High-value transactions decreased from G\$200.4 billion to G\$185 billion and low-value transactions increased from G\$101.1 billion to G\$144.3 billion in 2020. The share of HVT in total value of transactions decreased to 56 percent in 2020 from 66.5 percent in 2019. Conversely, the share of LVT increased to 43.8 percent in

---

2020 from 33.5 percent in the previous year. The average value of HVT rose by 3.3 percent in 2020 to G\$6.3 million, while the average value of LVT rose to G\$0.64 million in 2020.

### **POLICY RESPONSE TO COVID-19**

The Bank of Guyana stands ready to activate its BCP with a view to minimising disruption to services provided to the financial system and the country as a whole. Measures are in place to ensure the adequate supply of currency while the Bank will continue to undertake all necessary measures to safeguard the Guyanese financial sector and economy at large.

In an effort to maintain its commitment to safeguarding and strengthening the resilience of the financial sector, the Bank has committed to and implemented a series of measures designed to minimise the economic impact of the COVID-19 pandemic on the entire financial system. The measures implemented were agreed to by the Guyana Association of Bankers (GAB) and are as follows:

- Grant a three-month moratorium to classify affected accounts as non-performing;
- Waive paragraphs 14 and 15 of Supervision Guideline No. 5 (i.e. the regulatory treatment/condition for renegotiating loans);
- Ensure the foreign exchange market continues to function effectively and
- Continue with an accommodative monetary stance to promote growth.

In addition, financial institutions were further encouraged to consider the following measures to alleviate some of the difficulties faced by customers as a result of the pandemic:

- Defer loan payments for individual customers and companies
- Waive or reduce fees/ penalties for electronic transactions (ATM, POS, EFT, debit cards) as well as loan processing, late payments on loans etc.
- Encourage customers to reduce in-person transactions by using e-banking, POS, ATMs, telephone etc.

Additionally, all insurance companies and pension schemes were encouraged to closely monitor their investments, especially in those countries that have been significantly impacted by the pandemic.

The Bank reminded the insurance companies that they were expected to activate their BCPs, where possible, in order to ensure that they are able to meet their regulatory and operational obligations under any adverse operating conditions caused by COVID-19. An extension of the regulatory deadline for their 2019 Annual Supervisory filing as well as their Quarterly filings was also granted and the companies were encouraged to extend a 60-day moratorium on cancellations and non-renewals for non-payment of premium from April 06, 2020. Insurance companies were also urged to expedite the use of electronic payment channels such as credit cards, online banking, SurePay, MMG etc.

The Bank ensured that there was no disruption in payment of benefits by the

---

pension schemes as well as emphasised that all benefit payments remain a priority. It was also recommended that the pension schemes extend a three-month moratorium on submission of life certificates as well as extend and discuss a workable grace period with contributors for the remittance of contributions.

## **THE GLOBAL ECONOMY**

Global growth contracted during the first quarter of 2020 as economic activities declined in the advanced, emerging and developing countries and Caribbean region (WEO – April, 2020). This subdued growth was as a result of the COVID-19 pandemic and subsequent lockdown of countries disabling consumer spending, private investment, international trade and production activities.

### **Advanced Economies**

Advanced economies' recorded a contraction of -4.8 percent in economic growth during the first quarter of the year, reflecting negative growths for the Euro Area by -3.6 percent and the US by -1.3 percent. The advanced economies have reportedly experienced the most widespread outbreaks of the COVID-19 where deployment of containment measures have since impacted negatively on economic activities.

As part of the Euro Area, Italy and Spain were most hard-hit by COVID-19 causing contracted growths by -5.3 percent and -5.2 percent respectively. Although essential to contain the virus, lockdowns and restrictions on mobility have extracted a sizable toll on economic activity. Germany and France have since experienced decreased growths of -2.2 percent and -5.3 percent respectively. In

addition, the United Kingdom's economy weakened by -2.0 percent while Japan's declined by -0.6 percent reflecting the negative impact from weaker global growth.

As global expansion weakened, core inflation slid in advanced economies to 0.5 percent. Inflation in the UK and US were calculated at 1.2 percent and 0.6 percent respectively. The Euro Area experienced lower consumer inflation of 0.2 percent from 1.2 percent in the previous year, while that of Japan was also recorded at 0.2 percent.

The labour market in advanced economies experienced a hike in unemployment rates with the US and UK recording 20.2 percent and 4.8 percent respectively. Unemployment levels in Spain and Italy were 20.8 percent and 12.7 percent respectively while in France and the Euro Area, it stood at 10.4 percent. Germany recorded unemployment at 3.9 percent.

### **Emerging Economies**

Growth in emerging economies declined by -0.3 percent in the first quarter reflecting the global health crisis, severe external demand shock, dramatic tightening in global financial conditions and a plunge in commodity prices, severely impacting economic activities in commodity exporters. Growth shrunk in China by -9.8 percent owing to major declines across its industrial production, retail sales, investment and external trade while India's economy grew by a meagre 0.7 percent. Russia also experienced minor growth by 0.3 percent while there was similar growth in Turkey by 0.6 percent. However, Mexico and Brazil both experienced contractions in their

---

economies by -1.2 percent and -1.5 percent respectively.

Inflation declined in emerging economies to 4.6 percent. India's inflation was approximated at 3.3 percent while inflation in China was lower at 3.0 percent reflecting weaker demand conditions. Inflation in Brazil and Russia fell to 3.6 percent and 3.1 percent respectively.

Brazil's unemployment rate rose to 14.7 percent while in Russia and China, the unemployment rate increased to 4.9 percent and 4.3 percent respectively.

### **Developing Economies**

Developing economies' growth declined by -0.6 percent due to major declines in economic activities as a result of COVID-19. In the Latin American and Caribbean Region growth contracted by -5.3 percent reflecting reductions in international trade, lower commodity prices and demand for tourism services, reduced remittances as well as the worsening of global financial conditions which have all resulted from the pandemic.

Inflation in developing countries declined slightly to 6.4 percent influenced by slower developments in the geographical group as a result of the COVID-19 pandemic.

### **Caribbean Economies**

Economic performance in the Caribbean continued to be set against the background of increasing global economic recession with a growth of -2.5 percent mainly due to the impact on economic activities especially in the services sector from the COVID-19 pandemic.

Unemployment continued to be a major problem in the Caribbean with its highest level at 18.0 percent, almost doubled from last year as a result of lockdown policies implemented due to COVID-19.

Barbados, Belize and ECCU continued their policy of fixed exchange rate vis-à-vis the US dollar. The Guyana dollar was relatively stable at \$208.50 during the first quarter while the Jamaican dollar depreciated to JAM\$135.63 against the US dollar. The Trinidad & Tobago dollar hovered around TT\$6.75 vis-à-vis the US dollar.

### **Commodity Prices**

Gold price rose to US\$1,591.93 per ounce, an increase of 7.6 percent from the end of 2019. Rice price increased by 14.4 percent to US\$494.00 per metric tonne while sugar price declined by 11.8 percent to US\$0.26 per kilogram. During the quarter, oil prices were volatile and fell to extreme lows, moving from US\$66.25 to US\$26.35 and reaching its lowest points in March as worldwide demand faced negative shocks. □

---

### 3. OUTLOOK FOR 2020

Global economic growth is projected to contract sharply by 3.0 percent at the end of 2020 owing to a global slowdown and uncertain recovery from the COVID-19 pandemic. It is very likely that this year the global economy will experience its worst recession since the Great Depression, surpassing that seen during the global financial crisis a decade ago. (WEO – April, 2020). The daunting prospects for the global economy are likely to adversely impact commodity exporting economies like Guyana as demand for exports are expected to decline resulting in lower export prices.

Around mid- March Guyana began enforcing restrictive measures to limit the spread of the coronavirus and protect its citizens after confirming its first case on March 11, 2020. The authorities closed the Guyana/Suriname border from March 14 and the country's airspace to international flights from March 19 while all of its seaports were closed to international vessels on March 21. Further, curfew and partial lockdown orders were issued effective April 04, with likely extensions. These measures, which have

limited business activities and mobility, are expected to result in a decline in economic growth, largely in the services sector. A number of businesses in the services sector, particularly, wholesale & retail trade and transportation, will be affected and subsequently unemployment levels will increase. The balance of payments deficit is projected to expand on account of declining export earnings, remittances and FDIs. Foreign exchange earnings will undoubtedly decrease, resulting in lower international reserves. The contraction in business activities will significantly reduce central government's revenues and this, coupled with the expenditure government will have to spend to aid the fight and recovery of the coronavirus, will lead to a larger fiscal deficit. Consequently, debt levels will rise as the government seeks to fill financing gaps. The financial system is expected to remain sound due to measures taken by the Bank in response to the pandemic. Similarly, the exchange rate is expected to remain relatively stable while the inflation rate will most likely continue to be low single-digits.

<sup>1)</sup> As of 2003, Companies Income Tax includes self-employed, corporation and withholding income taxes

<sup>2)</sup> As at Mar-2017, 'other income tax' will not include capital gains (it was relocated under 'other tax revenue')

<sup>3)</sup> Value Added Tax (VAT) and Excise Tax were implemented on January 01, 2007

<sup>1)</sup> Environmental Levy was implemented on February 01, 2017.

<sup>2)</sup> As at Mar-2017, 'capital gains' was relocated to 'other tax revenue' from 'other' income taxes.

<sup>3)</sup> GRIF Inflows were excluded from Total Non-Tax Revenue with effect Dec-2012.

## I. GENERAL NOTES

### Symbols Used

- ... Indicates that data is not available;
- Indicates that the figure is zero or less than half the final digit shown or that the item does not exist;
- Used between two periods (e.g. 2010-11 or July-September) to indicate the years or months covered including the beginning and the ending year or month as the case may be;
- / Used between years (e.g. 2010/11) to indicate a crop year or fiscal year.
- = Means incomplete data due probably to under-reporting or partial response by respondents.
- \* Means preliminary figures.
- \*\* Means revised figures.

In some cases, the individual items do not always sum up to the totals due to rounding.

### Acknowledgement

The Bank of Guyana wishes to express its appreciation for the assistance received from the Ministry of Finance, State Planning Secretariat, Commercial Banks, Bureau of Statistics, some Public Corporations and other Private Sector agencies in the compilation of the data.

## II. NOTES TO THE TABLES

**TABLE 1.1: Bank of Guyana: Assets**

### **Foreign Assets**

**Balances with Foreign Banks:** Deposits of the Central Bank with Foreign Banks. The data also include holdings of foreign notes and gold. Figures from December 2005 to December 2006 were restated to reflect the audited statements.

**Gold Tranche with the I.M.F.:** One quarter of Guyana's subscription to the International Monetary Fund (I.M.F.) quota, which comprises gold and/or convertible currencies.

**Holdings of Special Drawing Rights:** Unused portion of the Special Drawing Rights (S.D.R.s) allocated by the I.M.F.

**Money Market Securities:** Holdings of short-and long-term debt instruments of foreign governments and the International Bank for Reconstruction and Development (I.B.R.D.) recorded at cost. Figures from December 2005 to December 2006 were restated to reflect the audited statements.

**Claims on the Central Government:** Holdings of the Government of Guyana Treasury Bills, Debentures valued at cost and Advances from the Bank of Guyana. The Bank of Guyana Act No. 19 of 1998 section 46 has since removed the possibility of advances to Government since it restricted the Central Bank from extending credit directly or indirectly to the Government from that date.

**Advances to Commercial Banks:** Short term credit to Commercial Banks.

**Other Assets:** Include fixed assets such as land and buildings, furniture and equipment. Cheques in the process of collection, notes and coins issued by the British Caribbean Currency Board, non-interest-bearing debentures, and other miscellaneous assets are also included.

**TABLE 1.2: Bank of Guyana: Liabilities**

**Currency Issue:** Notes and Coins issued by the Bank.

**Government Deposits:** Current account deposits of the Central Government which includes sterilised amount from open market type operation with effect from 1994.

**Deposits of International Organisations:** Obligations to the I.M.F.; local currency component of the subscription to the I.M.F. quota; deposits of the I.B.R.D, the Caribbean Development Bank (C.D.B.) and foreign central banks. Other foreign liabilities of the Bank of Guyana are also included.

**Bank Deposits-EPDs:** Guyana dollar deposits with the Bank of Guyana made by Commercial Banks on behalf of their customers pending foreign exchange releases to meet foreign obligations which fell into arrears prior to 1990. This scheme was discontinued for foreign obligations after 1990.

**Bank Deposits-Other:** Commercial Banks' reserve deposits which includes statutory reserves with Bank of Guyana are recorded here. With effect from December 1994, special interest earning deposits of the Commercial Banks were discontinued in favour of unremunerated required free reserves.

**Other Deposits:** Includes deposits of National Insurance Scheme (N.I.S.), Guyana Gold Board (US \$ Deposits), Guyana Energy Agency (GEA) and Linden Economic Advancement among others.

**Authorised Share Capital:** The enactment of the Bank of Guyana Act No. 19 of 1998 provided for the increase in the capital for the Bank as part of the reform process.

**Other Reserves:** These reserves include General, Revaluation and Contingency Reserves.

**Allocation of S.D.R.'s:** Liability accruing from the SDRs allocated to Guyana, which are valued at the equivalent of Guyana dollar amount converted through the S.D.R. /U.S. dollar cross rate.

**Other Liabilities:** Include provision for accrued expenses, items in transit; private investment fund; and miscellaneous items. The decline in Other Liabilities from November 30, 2002 to December 31, 2002 reflects the charging of valuation changes to Other and Government Deposits.

**TABLE 1.3: Bank of Guyana: Currency Notes Issue**

Total issue less withdrawal of mutilated or spoiled legal tender notes. With the intent of enhancing the efficiency of the Payment System, the Bank of Guyana introduced a G\$5,000 note in 2013. In celebration of Guyana's 50th Independence Anniversary, the Bank issued a commemorative G\$50 note which was placed in circulation in May 2016.

**TABLE 1.4: Bank of Guyana: Coins Issue**

Total issue less withdrawals of defaced legal tender coins. The Bank of Guyana as part of its currency reform programme introduced with effect from January 1, 1997, G\$10, G\$5, G\$1 coins as legal tender and removed from the specie the use of cents.

**TABLE 2.1(a): Commercial Banks: Assets**

**Balances due from Banks abroad:** Deposits of Commercial Banks with Non-Resident foreign banks included head offices and branches.

**Loans to Non-Residents:** Commercial Bank lending to Non-Resident customers. Due to re-classification at a Commercial Bank, figures for Private Sector and Non-Resident loans have been revised from December 2000 to May 2002. In keeping with the Monetary Financial Statistics Manual (MFSM), figures for loans to Non – Residents, Private Sector and Public Financial Enterprises include accrued interest with effect from December 2002.

**Other Foreign Assets:** Include foreign currency holdings and all other claims on Non-Residents by Commercial Banks. Due to reclassification at a Commercial Bank figures for Public Sector Other and Foreign Sector Other were revised from September 2002 to February 2003.

**Securities:** The total volume of Central Government Treasury Bills recorded at cost and debentures held by commercial banks. In keeping with the Monetary Financial Statistics Manual (MFSM), figures for Securities include accrued interest from Dec. 2002.

**Loans:** Central Government borrowing from the Commercial Banks. See note above under loans to Non-Residents.

**Public Enterprises:** Loans and Advances extended by Commercial Banks to Public Financial Business Enterprises. Public Non-Financial Enterprises are defined as enterprises in which Government owns above 50 per cent of the share capital. See note above under loans to Non – Residents.

**Other:** Commercial Banks' claims on Local Government and the National Insurance Scheme. See note above under loans to Non-Residents

**Non-Bank Financial Institutions:** Loans issued to Public and Private Non-Bank Financial Institutions by Commercial Banks'. See note above under loans to Non-Residents

**Private Sector:** Lending through loans and advances to Private Non-Financial Business Enterprises and Individual Customers. See note above under loans to Non-Residents. The decline in Private Sector Loans and Advances resulted partly from a reclassification of some loans at one Commercial Bank. See note above under loans to Non-Residents. The acquisition of Guyana National Co-operative Bank (GNCB)'s assets net of loans valued G\$8,473.0 million by the National bank of Industry and Commerce Limited on March 15' 2003 resulted in the decline in Private Sector Loans and Advances during March 2003.

**Deposits with Bank of Guyana:** Include statutory reserve deposits and interest earning deposits of the Commercial Banks. Effective December 28, 1994, interest-earning deposits were discontinued.

**External Payment Deposits (E.P.D):** Guyana dollar deposits with the Bank of Guyana made by Commercial Banks on behalf of their customers, pending foreign exchange releases to meet external obligations.

**Currency:** Commercial Banks' holdings of local notes and coins.

**Other Assets:** Include balances due from other Commercial Banks, Real Estate Mortgage Loans, fixed assets such as land and building, furniture, equipment and other miscellaneous assets.

**TABLE 2.1(b): Commercial Banks: Liabilities, Capital and Reserves**

**Balances due to Other Banks abroad:** Foreign claims made on local Commercial Banks by Head Offices and other banks abroad.

**Non-Resident Deposits:** Total deposits made by Non-Resident customers with Commercial Banks. In keeping with the Monetary Financial Statistics Manual (MFSM), figures for deposits to Non-Residents, Private Sector and Public Financial Enterprises include accrued interest with effect from December 2002.

**Other:** Include all other foreign claims on Commercial Banks.

**Central Government Deposits:** Total demand, time and savings deposits made by the Central Government with Commercial Banks. See note above under deposits to Non-Residents.

**Public Enterprise Deposits:** Total demand, time and savings deposits made by Public Non-Financial Enterprises with the Commercial Banks. Due to the sale of Aroaima Bauxite Company to the government and a reclassification of its accounts from the Private to Public Sector, figures from January 2002 to April 2002 have been revised. See note above under deposits to Non-Residents.

**Other Public Deposits:** Include total deposits of Local Government and National Insurance Scheme. See note above under deposits to non-residents. See note on Table 2.4 Commercial Banks: Time Deposits.

**Non-Bank Financial Institutions Deposits:** Consist of total deposits made by Public and Private Financial Institutions. See note above under deposits to Non-Residents. See note on Table 2.4: Commercial Banks: Time Deposits.

**Private Sector Deposits:** Include total demand, time and savings deposits of Private non-financial Business Enterprises and individual customers. See note above under Public Enterprises Deposits. See note above under deposits to non-residents.

**External Payment Deposits:** Comprise customers' deposits (public and private sector) with commercial banks on account of External Liabilities prior to 1990 and awaiting foreign exchange releases from the BOG.

**Bank of Guyana:** Commercial Bank short-term borrowing from the Bank of Guyana.

**Other Liabilities:** Other liabilities of the Commercial Banks include manager's cheques, acceptances, provision for taxes and other miscellaneous liabilities.

**Capital and Reserve:** The acquisition of Guyana National Co-operative Bank (GNCB)'s assets net of loans valued G\$8,473.0 million by the National Bank of Industry and Commerce Limited (now Republic Bank Guyana Limited) on March 15, 2003 resulted in the decline in the capital and reserve of the banking systems during March 2003.

**TABLE 2.2: Commercial Banks: Total Deposits**

Total demand, savings and time deposits of Residents and Non-Residents excluding inter-bank deposits are presented. Foreign currencies denominated deposits are also included here. See note under Public Enterprises Deposits for Table 2.1 (b) above. See note under Non – Resident Deposits for Table 2.1(b) above.

**TABLE 2.3: Commercial Banks: Demand Deposits**

Current account deposits of Residents and Non-Residents; inter-bank deposits are excluded.  
See note under Public Enterprises Deposits for Table 2.1 (b) above.

**TABLE 2.4: Commercial Banks: Time Deposits**

Fixed deposits of Residents and Non-Residents with a minimum withdrawal notice of three months; exclude inter-bank deposits. See note under Non-Resident deposits for Table 2.1(b) above. Due to a reclassification of N.I.S and Non-Bank Financial Institutions' time deposits, figures from December 2003 to April 2005 were revised.

**TABLE 2.5: Commercial Banks: Savings Deposits**

Deposits with minimum withdrawal notice of one day; exclude inter-bank deposits. See note under Public Enterprises Deposits for Tables 2.1 (b) above. See note non-resident deposits for Table 2.1(b) above.

**TABLE 2.6: Commercial Banks: Time Deposits by Maturity**

Includes deposits of both Residents and Non-Residents. See note under Commercial Banks: Time Deposits for table 2.4 above.

**TABLE 2.7: Commercial Banks: Savings Deposits**

Includes deposits by both Residents and Non-Residents. Ending balance on savings accounts for November 2002 do not equate to the opening balance for December 2002 due to the addition of accrued interest to the December 2002 opening balance. The ending balance for February 2003 saving accounts differs from the opening balance for March 2003 due to the reclassification from

demand and time accounts to saving accounts.

**TABLE 2.9: Commercial Banks: Clearing Balances**

Comprise total amount of cheques cleared by and debited to the accounts of the Commercial Banks. A National Clearing House was established at the Bank of Guyana during 1998 whereby large (in excess of G\$500,000) and small valued cheques are cleared. Data recorded after 1998 in this table reflect the value of small valued cheques cleared over the reporting period.

**TABLE 2.10 (a): Commercial Banks: Total Loans and Advances**

The data include Loans and Advances to Residents and Non-Residents. Real Estate Mortgage Loans and inter-bank loans are excluded. The total of loans and advances to the private sector differs from total credit to the private sector in Table 3.1 (Monetary Survey). The totals for credit to the private sector in Table 3.1 include local securities, other credit instruments and real estate mortgage loans. Due to a reclassification by two Commercial Banks, figures for Private Sector Credit have been revised from January 2012 to March 2013.

See note under Loans to Non-Residents for Table 2.1 (a) above. See note under Private Sector for Table 2.1(a) above.

**TABLE 2.10(b): Commercial Banks: Total Loans and Advances**

The data covers total Loans and Advances to Residents and Non-Residents including Real Estate Mortgage Loans effective December 2001. Due to a reclassification by two Commercial Banks, figures for Private Sector Credit and Real Estate Mortgage loans have been revised from January 2012 to March 2013.

**TABLE 2.11: Commercial Banks: Demand Loans and Advances**

The data cover lending for short periods including overnight loans to Residents and Non-Residents and exclude inter-bank loans. Due to a reclassification by two Commercial Banks, figures for Private Sector Credit and Real Estate Mortgage loans have been revised from January 2012 to March 2013.

See note under Private Sector for Table 2.1(a) above.

**TABLE 2.12: Commercial Banks: Term Loans and Advances**

The Loans and Advances are for longer periods extended to Residents and Non-Residents; inter-bank lending is excluded. Due to a reclassification by two Commercial Banks, figures for Private Sector Credit and Real Estate Mortgage loans have been revised from January 2012 to March 2013.

See note under Private Sector for Table 2.1(a) above. See note under loans to Non-Residents for Table 2.1(a) above.

**TABLE 2.13: Commercial Banks: Loans and Advances to Residents by Sector**

The data provided record balances at the end of the respective period and therefore indicates the indebtedness of the respective industries at the end of the reporting period. The value of credit obtained by each industry for a given period can be obtained by taking the difference between the balances at the end of the desired period and that immediately preceding. The balances in this table exclude inter-bank loans, real estate mortgage loans, local securities and other credit instruments. It should be noted that gross indebtedness of the sugar and rice industry can be obtained by adding the balances of sugar cane and sugar and molasses manufacturing of sugar, and paddy and rice milling for rice respectively. Figures under the 'other purposes' sub-category has been reclassified to exclude credit card transactions effective from March 2007. Due to a reclassification by two Commercial Banks, figures under the Private Sector have been revised from January 2012 to March 2013. See note under Loans to Non-Residents for Table 2.1 (a) above. See note under Private Sector for Table 2.1(a) above.

**TABLE 2.14: Commercial Banks: Liquid Assets**

The liquid assets comprise Bank of Guyana notes and coins, foreign currency held by banks, (special interest earning) deposits held at the Bank of Guyana (BOG), balances due from other Commercial Banks - both local and foreign, Government of Guyana Treasury Bills. The special reserves deposits (SRDs) established in 1969, discontinued in 1994 as the Bank of Guyana sought to develop its capacity to manage the excess reserves of the bank more effectively. Approximately, 75-80 per cent of the SRDs were absorbed through a sale of three year, variable rate, and fixed date debenture to the Commercial Banks.

Prior to March 1989, the legally required level of liquid assets to be held by the Commercial Banks against their deposit liabilities was calculated as the sum of 20 percent of demand liabilities and 15 percent of time liabilities. During the period March 31, 1989 to May 15, 1991 the determination of the required liquid assets held by the banks was based on actual holdings on specified dates. Accordingly, from March 31, 1989 to June 30, 1990 required liquid assets were stipulated as the actual holdings on March 15, 1989. Between July 30, 1990 and February 19, 1991 the required liquid assets was based on the assets held by the banks on September 30, 1989. Further, between February 20, 1991 and May 14, 1991 the required balances were set as at the end of July 30, 1990.

With effect from May 15, 1991, however, the basis for calculating required liquid assets was changed to 25 percent of demand liabilities and 20 percent of time liabilities. Further, amendments to the liquid asset requirements became effective on 26<sup>th</sup>, October 1998. The liquid assets base period has been redefined as the Monday to Friday workweek immediately preceding the liquid asset maintenance period. The liquid asset requirement is determined by applying the prescribed percentages to the weekly average of the daily liabilities balances at the close of business of each of the five days of the liquid asset base period. Figures for Treasury Bills were reclassified from December 2000 to December 2002.

**TABLE 2.15: Commercial Banks: Minimum Reserve Requirements**

Prior to May 16, 1991, the minimum required reserves of the Commercial Banks were calculated as 6 percent of demand liabilities and 4 percent of time liabilities. Their percentages were changed with effect from May 16, 1991, to 11 percent of demand liabilities and 9 percent of time liabilities. Commencing April 7, 1994, the minimum required reserves of the Commercial Banks were again revised to the sum of 16 percent of demand liabilities and 14 percent of time liabilities.

On June 29, 1998, in addition to Commercial Banks, other licensed Financial Institutions were required to maintain balances with the Central Bank against their deposits and other liabilities. Further, the required reserve period has been changed on Monday to Friday workweek instead of the Wednesday to Thursday week used previously. The required reserve period has been referred to as the reserve base period. The week following the current reserve base period, i.e. the reserve maintenance period is also based on the Monday to Friday workweek. The deposits and other liabilities to which the required reserve ratio(s) are applied are referred to as the reserve base. During the reserve maintenance period, all licensed Financial Institutions subject to reserve requirement are required to maintain reserves against the relevant deposit and other liabilities.

Effective February 1, 1999, the required reserve ratio applicable to all liabilities of licensed Financial Institutions was lowered to twelve per cent (12 %). The first reserve base period for which the revised requirements became relevant was the 1<sup>st</sup> to 5<sup>th</sup> February 1999 while the reserve maintenance period was the 8<sup>th</sup> to 12<sup>th</sup> February 1999. However, reserve balances for the Non-Bank licensed Financial Institutions are excluded from table 2.15.

**TABLE 2.16(a): Foreign Exchange Intervention**

This comprises Bank of Guyana's purchases and sales of US Dollars to the Commercial Banks.

**TABLE 2.16(b): Interbank Trade**

This comprises foreign currency (US, Euro, Pounds Sterling and Canadian) purchases and sales amongst the Commercial Banks.

**TABLE 2.17: Commercial Banks holdings of treasury bills**

These are short-term government securities held by the Commercial Banks with maturities of 91 days, 182 days and 364 days. Data are at face value.

**TABLE 3.1: Monetary Survey**

A consolidation of the balance sheets of the Bank of Guyana and Commercial Banks.

**Foreign Assets (net)**

**Bank of Guyana:** Gross foreign assets **less** gross foreign liabilities.

**Commercial Banks:** Gross foreign assets **less** gross foreign liabilities. See note under Loans to Non-Residents for Table 2.1 (a) above.

**Domestic Credit**

**Government (net):** Gross lending to Central Government by the banking system (a sum of Holdings of debentures, bonds, Treasury Bills and loans and advances **less** total deposits of the Central Government).

**Public Enterprise (net):** Gross borrowing by Non-Financial Public Enterprises from the banking system **less** their deposits. See notes under Public Enterprises Deposits for Table 2.1 (b) and Commercial Banks: Time Deposits for Table 2.4 above.

**Other Public Sector (net):** Gross borrowing from the banking system by local authorities and municipalities **less** their total deposits and other Public Sector funds. See note under loans to Non-Residents for Table 2.1(b) above.

**Non-Bank Financial Institution (net):** Gross borrowing from the banking system by the non-bank financial intermediaries with the banking system **less** their deposits. See notes under loans to Non-Residents for Table 2.1(b) and Commercial Banks: Time Deposits for Table 2.4 above.

**Private Sector:** Gross borrowing from the banking system. See note under Loans to Non-Residents for Table 2.1 (a) above. See note under Private Sector for Table 2.1(a) above.

**Money and Quasi-Money**

**Money:** Currency outside banks **plus** private sector demand deposits, managers' cheques and acceptances. See note under Public Enterprises Deposits for Table 2.1 (b) above

**Currency:** Currency issue (Table 1.2) **less** currency holdings by Commercial Banks (Table 2.1(a)).

**Quasi-money:** Time and savings deposits held by the Private Sector. See note under Public Enterprises Deposits for Table 2.1 (b) above.

**Demand deposits:** Balances of the Private Sector including managers' cheques and acceptances. See note under Public Enterprises Deposits for Table 2.1 (b) above.

**Savings and Time deposits:** Balances held by Private Sector. See note under Loans to Non-Residents for Table 2.1 (a) above.

**Other (net):** Includes the net sum of all assets and liabilities of the Bank of Guyana and the Commercial Banks not shown elsewhere.

**TABLE 4.1: Guyana: Selected Interest Rates**

Reflects interest rates at Commercial Banks and Non-Bank Financial Institutions on loans and deposits. The small savings rate represents an arithmetic average of savings deposit rates as reported by the Commercial Banks. Treasury bill rates for all maturities reflect rates at the end of the reporting period. Special deposits have been discontinued with effect from December 1994.

**TABLE 4.2: Commercial Banks: Selected Interest Rates**

Arithmetic average of interest rates as reported by the Commercial Banks.

**TABLE 4.3: Comparative Treasury Bills Rates and Bank Rates**

The average discount rate on three month Treasury Bills for the U.K., U.S.A., Barbados, Trinidad, Guyana and Jamaica. The U.K. and U.S. rates are the average discount rates at the last tender in each month. The rates for the CARICOM territories are those rates of monthly tender held towards

**TABLE 5.1: The New Building Society: Assets and Liabilities**

**Assets**

**Foreign Assets:** Includes holdings of foreign assets.

**Cash and Deposits:** Holdings of cash and total deposits (demand, time and savings) at Commercial Banks.

**Government of Guyana Treasury Bills:** Holdings of Treasury Bills recorded at book value.

**Government of Guyana Securities:** Holdings of debentures and defence bonds at book value.

**Government of Guyana Debentures:** Holdings of debentures at book value.

**Local Authorities Securities:** Bonds at book value.

**Liabilities**

**Share Deposits:** A total of Five Dollar and Save and Prosper Share deposits.

**Other Deposits:** Ordinary Saving deposits

**TABLE 5.2 (a): Trust Companies: Assets**

Trust Companies reflect the consolidated operations of Trust Company (Guyana) Limited and Hand-In-Hand Trust.

**Cash:** Currency (local notes and coins) held by the institution.

**Deposits:** Balances of savings and time deposits at Bank of Guyana and the Commercial Banks.

**Government of Guyana Treasury Bills:** Recorded at book value.

**Local Government Securities:** Recorded at book value.

**TABLE 5.2 (b): Trust Companies: Liabilities**

**Deposits – Business Firms:** Balances held by private sector businesses.

**Deposits – Individual Customers:** Balances held by private individuals.

**Deposits – Other Customers:** Balances held by other private sector agencies including non-financial organizations.

**TABLE 5.2 (c): Finance Companies: Assets**

Finance Companies reflect the consolidated operations of Secure International Finance Company, Beharry Stock Brokers Limited and one merchant bank.

**Cash:** See note under Cash for Table 5.2 (a) above.

**Deposits:** Balances of savings and time deposits at Commercial Banks.

**Private Sector Shares:** Ownership of equity such as bonds, bills, shares etc. in private companies.

**TABLE 5.2 (d): Finance Companies: Liabilities**

**Loans:** Loans received from Companies' affiliates.

**Capital and Reserves:** Includes retained earnings and reserves.

**Deposits – Other Customers:** Balances held by other private sector agencies including non-financial organizations.

**TABLE 5.3: Domestic Life Insurance Companies: Assets and Liabilities**

The data cover four insurance companies: Demerara Mutual Life Assurance Company; Guyana and Trinidad Mutual Life Insurance Company; Hand-In-Hand Mutual Life Insurance Company and North American Life Insurance Company Limited.

**Assets**

**Foreign Commercial Bank Deposits:** Deposits held in Foreign Commercial Banks.

**Foreign Securities:** Holdings of the Government of the United Kingdom and CARICOM countries and other foreign securities.

**Other Foreign Assets:** Balances due from reinsurance abroad, and other foreign assets.

**Government of Guyana Debentures:** Holdings are recorded at book value.

**Local Government Securities:** Holdings are recorded at book value.

**Securities in Firms:** Holdings of commercial bills, shares and other securities recorded at book value.

**Liabilities**

**Life Insurance Fund:** Insurance premia received.

**Foreign Liabilities:** Claims by non-residents, balances due to insurance companies abroad, non-resident life insurance funds and other liabilities.

**TABLE 5.4: Pension Schemes: Assets and Liabilities**

**Assets**

**Foreign Sector:** Includes foreign deposits and foreign securities.

**Government of Guyana Treasury Bills:** Holdings recorded at book value.

**Government of Guyana Debentures:** Holdings recorded at book value.

**Local Government Securities:** Holdings of Local Government Securities recorded at book value.

**Liabilities:**

**Pension Fund:** Receipts from the twenty-seven pension funds in Guyana which submit returns to the Bank of Guyana.

**TABLE 6.1 Central Government Finances: Summary**

**Current Revenue:** The data include collection of taxes, other charges and fees. The data are recorded on a cash basis.

**Current Expenditure:** The data include interest payment, interest charges and other expenditure. Repayment of Principal is not included. The data are recorded on a cash basis.

**Current Surplus/Deficit:** Current revenue **less** current expenditure.

**Capital Receipts:** These include proceeds from sale of assets and external grants.

**Capital Expenditure:** Investment expenditure; the data also include net transfers and lending to the public enterprises for financing development projects.

**Overall Surplus/Deficit:** The total of current revenue and capital receipts **less** the total of current and capital expenditure.

**Borrowing from abroad:**

**Net short term:** Gross borrowing with a maturity of up to 1 year **less** repayment of principal.

**Long term net borrowing:** Gross borrowing with a maturity of over 1 year **less** repayment of principal.

**Domestic Borrowing:**

**Borrowing from the banking system (net):** The banking system holdings of Government debentures, bonds, Treasury Bills and loans and advances **less** Government deposits.

**Non-bank borrowing:** Borrowing outside the banking system. Short-term (net) includes Treasury bill holdings **less** redemptions and local suppliers' credits. Long-term (net) borrowing comprises holdings of debentures and development bonds **less** redemptions. Holdings of debentures and Treasury Bills by sinking funds are excluded.

**Other Financing:** Comprises mainly accumulated arrears on external debt repayment, rescheduling of debt and financing from counterpart funds.

**TABLE 6.4 Public Corporations Finances: Summary**

The table summarises the financial operations of the public corporations and companies. All data from 1990 are based on cash flow statements. Prior to 1990 the data were on an accrual basis.

**TABLE 7.1 Domestic Public Debt**

Comprise Government of Guyana Defence Premium Bonds, Guymine Bonds, Debentures and Treasury Bills.

**Defence Premium Bonds:** These are non-interest bearing savings certificates of six months duration. They are no longer used to raise funds. Data are at face value.

**Guymine Bonds:** These were issued by the Government of Guyana to foreign creditors of the Guyana Mining Enterprise at the time of the firm's restructuring in June 1992. The amounts shown here were required by Guyanese residents during 2000 through 2002. Data are at face value.

**Government of Guyana Debentures:** These are long term government securities with maturities in excess of one year. Data are at face value.

**Government Treasury Bills:** These are short-term government securities with maturities of 91 days, 182 days and 364 days. Data are at face value.

**TABLE 7.2 Government of Guyana: Treasury Bills by Holders**

The holdings of Treasury Bills are recorded at face value. Consequently, figures in this table will differ from those reported in the balance sheet of the Bank of Guyana, Commercial Banks and Non-Bank Financial Institutions, which are recorded at book value.

**Other Financial Institutions:** Consist of non-bank financial institutions viz:- building societies, insurance companies, trust companies and pension funds.

**Public Sector:** Include Public Enterprises, National Insurance Scheme, other funds and sinking funds.

**Private Sector:** excludes financial institutions.

**Non-residents:** include foreign missions and organizations.

**TABLE 7.3 Government of Guyana: Debentures by Holders and Other Debt**

The holdings of Debentures and Defence Bonds are at face value. The debentures are long term government securities with maturities in excess of one year. Non-interest bearing debentures held by the Bank of Guyana are excluded. The Defence Bonds have a six-month duration. They are no longer issued.

**TABLE 7.4 Government of Guyana: Debentures by Maturities and Terms**

Data include all fixed date, equated annuity and special issues; at face value.

**Fixed Date Debentures:** These debentures have fixed dates for payments of principal and interest.

**Special Issues:** Comprise fixed date and equate annuity debentures issued to Bank of Guyana and the National Insurance Scheme. In 1994 the Central Bank absorbed between 75 percent to 80 percent of the excess reserves of the banking system, through a forced sale of a long term (3 years) variable rate fixed date debenture. The interest is calculated at a rate of point five percent (0.5 %) per annum above the regular three month treasury bill yield rate averaged over the calendar months prior to the interest due date. In 2003, the Government of Guyana made a

special issue of debentures to the National Bank of Industry and Commerce (NBIC) (now Republic Bank (Guyana) Limited) to capitalize the Guyana National Co-operative Bank (GNCB) at the time of its privatization.

**TABLE 7.5 External Public Debt**

The data comprise the stock of Central Government and Government guaranteed debt outstanding, Bank of Guyana's debt is excluded.

**Bilateral Debt:** Debt contracted with foreign investments.

**Multilateral Debt:** Debt contracted with international lending institutions such as the World Bank, the Inter-American Development Bank, the Caribbean Development Bank and the European Investment Bank.

**Financial Institutions Debt:** These debts include borrowing from foreign commercial banks and specialized official lending agencies.

**Suppliers Credit:** Obligations to suppliers for deferred payment after delivery of goods and/or services.

**Nationalisation Debt:** Amounts owing to foreigners in compensation for nationalized assets.

**TABLE 8.1(a) Imports by End-Use**

The data are compiled on a cost-insurance-freight (c.i.f.) basis as recorded on customs returns. Figures for all commodities are compiled by the Bureau of Statistics and forwarded to the Bank of Guyana.

**TABLE 8.2 Domestic Exports**

The data are compiled on a free-on-board (f.o.b.) basis as recorded on customs returns. Figures for all commodities are compiled by the Bureau of Statistics and forwarded to the Bank of Guyana.

**TABLE 8.5 International Reserves and Foreign Assets**

**International Reserves**

**Bank of Guyana Foreign Assets:** Data include gold holdings, balances with foreign banks, foreign notes, foreign cash in the process of collection, gold tranche with I.M.F., S.D.R. holdings and money market securities.

**Bank of Guyana Foreign Liabilities:** Data include total short-term current liabilities, short-term liabilities in arrears and total medium liabilities in arrears. The liabilities include interest obligations. Rescheduled short-term liabilities are excluded.

**Foreign Assets**

**Bank of Guyana Foreign Assets:** The composition of the assets is identical to that of International Reserves Foreign Assets above.

**Bank of Guyana Foreign Liabilities:** Data include all short-term liabilities (current, arrears and rescheduled) and all medium term liabilities (current, arrears and rescheduled). The liabilities include interest obligations.

**Commercial Banks' Foreign Assets:** Data include foreign currencies in banks, net balances due from Head Offices and other branches abroad, balances due from other banks abroad,

foreign treasury bills and securities and credit to non-residents.

**TABLE 8.7 Balances of Payments**

**Exports:** The data are compiled on a free on board (f.o.b.) basis as recorded on customs returns. Data for all commodities are compiled by the Bureau of Statistics and forwarded to the Bank of Guyana. The Conversion rate is an average rate for the period for the United States Dollar against the Guyana Dollar.

**Imports:** The data are compiled on a cost-insurance-freight (c.i.f.) basis as recorded on customs returns. Data for all commodities are compiled by the Bureau of Statistics and forwarded to the Bank of Guyana. The Conversion rate is an average rate for the period for the United States Dollar against the Guyana Dollar.

**TABLE 8.8 International Investment Position**

With effect from December 2019, the Bank of Guyana began reporting data on Guyana's International Investment Position.

**Direct Investment:** Direct Investment includes equity investment and debt investment.

**Portfolio Investment:** Portfolio Investment includes equity and debt securities.

**Other Investment:** Other investment includes currency & deposits, loans, insurance, trade credits and other.

**TABLE 9.1 Changes in Bank of Guyana Transaction Exchange Rates**

The Guyana dollar was fixed in Pound Sterling at the rate of £1 to G\$4.80 until October 1975 when it was linked to the US\$1 to G\$2.55.

On June 2, 1981, the Guyana dollar was pegged to a composite basket of currencies consisting of the United States dollar, Pound Sterling, Deutsche Mark, Trinidad and Tobago dollar and the Japanese Yen. The exchange rates was fixed at US\$1 to G\$3.00. The US dollar was the intervention currency used to determine the exchange rate.

From January 11, 1984, the composite basket of currencies was adjusted to include the Pound Sterling, Deutsche Mark, Japanese Yen, French Franc and the Netherlands Guilder, the US dollar, although nor part of the revised basket, remained as the intervention currency. The United States dollar/Guyana dollar exchange rate was announced weekly. From October 1984 until January 1987, the exchange rate was maintained in the range of G\$4.15 to G\$4.40 per US dollar.

Effective January 19, 1987, the Guyana dollar was devalued to G\$10 to US\$1, effective from April 3, 1989 the Guyana dollar was devalued moving from G\$33 per US\$ to US\$1. On June 15, 1990, the Guyana dollar was devalued from G\$33.00 per US\$ to G\$45.00 per US\$. Transactions for this rate were confined to payments in respect of oil imports and external debt services and proceeds from sugar and rice exports.

On February 21, 1991, the Guyana dollar was devalued from G\$45.00 to US\$ to G\$101.75 thereby unifying the official exchange rate with the market determined rate prevailing at that date. The US dollar continued to be the intervention currency. From February 25, 1991, the exchange rate was fixed on a weekly basis. During the period February to September 1991, the exchange rate was determined by the pervious week free market exchange rate of the Commercial Banks and Non-Bank dealers.

From October 1991, the average weighted daily exchange rate was telegraphic transfers for the three largest Commercial Banks was utilised to determine the exchange rate for the Bank of Guyana daily transactions.

**TABLE 9.2(b) Exchange Rate (G\$/US\$)**

The end of period exchange rate is the weighted official rate used by the Bank of Guyana for transactions. The period average exchange rate reflects the weighted average rate for the respective periods.

**TABLE 9.5: Monthly Average Market Exchange Rate**

On March 13, 1990, the authorities established the cambio system for foreign currency transactions. Under the system, transactions in the cambio market were conducted freely with licensed dealers (banks and non-banks) setting the rate at which foreign exchange could be bought and sold. The rates are referred to as the market exchange rates. Data collection for the Euro started in January 2004.

**The buying rate** is a weighted average of the purchase rates of all licensed foreign exchange dealers for the month.

**The selling rate** is a weighted average of the sales rates of all licensed foreign exchange dealers for the month.

**The mid-rate** is the average buying and selling rates of all licensed foreign exchange dealers. The rate is based on transactions in foreign notes only.

**TABLE 10.1 Gross Domestic Products, Income and Expenditure (at Current Basic Prices)**

GDP compiled at current basic prices, for the respective year, is the production of goods and services undertaken by firms, households, government bodies within the borders of the country during a calendar year, at the amount receivable by the producer from the purchase of a unit of good or service less any tax payable, plus any subsidy receivable as a consequence of its production or sale.

**TABLE 10.2 Gross Domestic Products (at 2006 Prices)**

Real GDP – taking the quantities of goods and services produced (at the current basic year) and priced at the base year of 2006 prices, it is therefore adjusted for any variation in prices (inflation or deflation).

**TABLES 10.3 National Production**

This accounts for the major commodities that account for a significant portion of national production and economic activities within a calendar year. It is sourced from the Bureau of Statistic (BOS) as well as the respective industries, such as for rice: Guyana Rice Development Board, sugar: GUYSUICO, forestry: Guyana Forestry Commission and gold: Guyana Gold Board, etc.

**Table 11.1 Georgetown: Urban Consumer Price Index**

The Urban Consumer Price Index measures the overall level of price movement for a specified basket of consumer goods and services in the urban area. It is compiled and computed by the Bureau of Statistics, and the basket is made up of nine (9) sub-categories, (this table highlights four: Food, Housing, Transport & Communication and Miscellaneous), which comprises of 217 items (goods and services). The current base year is December 2009.

**Table 11.2 CARICOM Countries: Consumer Price Indices**

This table reflects the consumer price movements for selected CARICOM countries (current base year 2010).
