

BANK OF GUYANA

NOTICE

As part of its commitment to the continuous upgrade of the Guyana currency notes, the Bank of Guyana shall issue with effect from March 4, 2019 an upgraded \$1,000 currency note.

This upgraded currency note keeps most of the elements of the previous note but with two significant changes to the front and back of the note:

1. The replacement of the Holographic Stripe at the front of the note with a RAPID[®] micro-optic security feature. This 6mm wide, blue micro-optic feature displays fluid and highly visible movement behind the national flower the Victoria Regia Lily, which is also represented in print on the edges of the note.

With only a slight tilt of the banknote, the bands in the RAPID feature move up and down behind the static numerals '1000' as the flower petals shimmer in blue and white.

2. The replacement of the windowed security thread at the back of the currency note with an embedded plastic thread, which is visible when held against the light.

This new \$1,000 currency note will circulate alongside the existing notes of the same denomination.

Dr. Gobind N Ganga

Governor

Bank of Guyana
